

# Your Remote ECG Assistant

Hospital-grade, 12-lead technology that allows you to monitor your patient's heart anytime, anywhere.

## Portable

Compact, lightweight (~1 lb.) system for use at home or on-the-go.

## Easy to Use

Fully-integrated system eliminates the need for shaving, gels or sticky adhesives.

## Rapid Results

Pairs with any smart device for rapid results in as little as 30 seconds.

*Optional access to our 24/7 cardiologist network.*

## Better Heart Care

Improve patient care with SmartHeart® as an important part of your remote patient monitoring solution.\*
